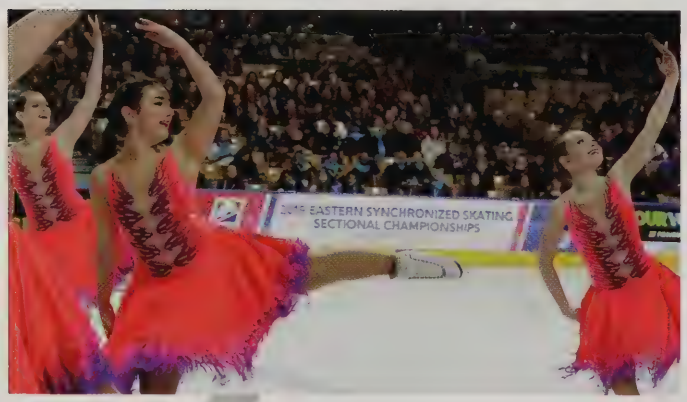
A Look Into

Ally Tierney has been dancing for sixteen years. Since then, she has been on many teams that have traveled to regional competitions, placing high in their division. She also has competed in solos and duets. Along with taking her own classes, she is a junior instructor at her studio. She loves this job because she gets to help the younger generation learn to dance by assisting classes. In 2018, she was given the opportunity to dance in the Macy's Thanksgiving Day Parade and spent a week in New York City preparing for the big day.

Sam Godshall has been surrounded by cameras for most of his life. His mom is an avid photographer and taught him most of what he knows. He started to really gain an interest in cinematography in 8th grade when browsing YouTube and stumbling across a video about professional cinematography. Sam was hungry for more content, so he found every how-to video that he could. Slowly but surely, Sam began to understand the software being used and even tried to make his own videos. Sam still has a lot to learn, and many how-to videos to watch, but in the meantime he will keep striving to make cool videos.



Ever since she was five years old, **Catherine Callahan** has had a pair of skates on her feet. She has competed all over the country in different events, from singles, to ice dance, to the newest figure skating discipline: synchronized skating. She has been a member of her synchronized skating team for the past five years, during which time they have gone to Nationals twice. She is incredibly grateful for the opportunities, lessons, and friendships that skating has given her, and she hopes to continue her involvement in the sport for years to come.

Our Lives

Jack Shurtleff has played drums ever since he was two and has loved it ever since. He plays for the Medfield High School ensemble and outside of school. He holds a residency every other Sunday at La Fabrica Central in Cambridge, performing at jazz brunches. Jack also has had gigs in Foxboro, Westwood, and Chatham and as a sideman. When he auditioned for the New England Conservatory Youth Jazz Orchestra and was accepted, he was ecstatic. The group comprises the best players in the state and he gets to practice in Boston every weekend.

Ever since she can remember, **Jenna Linnert** has been sewing. She started with making pillows and bags, but slowly she found the niche of costume design and construction. When she discovered cosplay, it was a way to blend her love of theater and designing clothes, and she fell in love instantly. She shares photos and videos of herself in cosplay on both TikTok and Instagram, where she has accumulated over 36k likes across both platforms. Jenna says her favorite part of cosplay is being able to make a costume and become a different character.

TJ Keane took a really good photo of his dog, Bailey, in 7th grade. He has been interested in photography and videography ever since. During freshman year, he found his place in the AV Club, filming school events and volunteering at Digital Learning Day. He has been the president of the club for the past two years. On the 2018 Mandarin trip to China, TJ was able to explore various types of photography and find what he loves.

Advice to Underclassmen

• • •

Freshman and sophomore years count!!
Work hard. It will pay off when
applying to college.

Always use the guest wifi.
Regular wifi never works.

Do your homework in school. It's key to success.
Work smarter, not harder.

Take an online class. Having the chill period
in your schedule is so nice.

Surround yourself with the people who make you
the happiest. That will be the best decision
you ever make.

Remember to have fun and don't stress out
too much :) It all goes by way too fast
to stress about the little things.

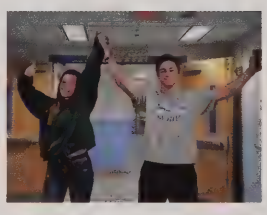
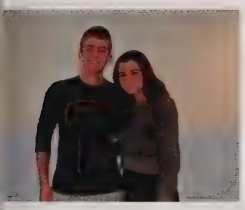
Senior Crushes

I had a crush on Jimmy Cosolito all of 5th and 6th grade. One day his brother, Frankie, came into our Advisory to say hi and at the end of the class Mrs. Doolan told Jimmy that she could tell I had a crush on Frankie by the way I looked at him...
-Sidney Sampson

In middle school, Reilly Mulock and I both had a huge crush on John McNeil and we consistently fought over who knew him better. She made a fake text of him asking her out to make me upset, and our friendship ended because of this fight. It's okay, though, because we're friends again now.
-Ariana Marmai



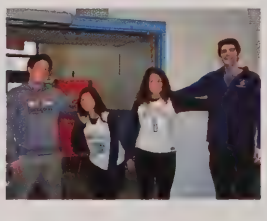
In 8th grade, I had a huge crush on Max Goodman. He asked me out in a Snapchat at 2 am on Thanksgiving morning, and we broke up over text a few months later after only going on one date.
-Brenna Stanton



Jack McCordic and I had a "thing" at the end of 6th grade. Quickly after, I discovered Gossip Girl. Before the next school year started, I broke things off with him because he wasn't like Chuck Bass, not mysterious enough. I wish I could have told my younger self that no high school guy is a Chuck Bass.
-Aiveen Pidcock

I had a crush on Cole Young in 1st grade. I told him this year because I thought it would be funny. He responded by saying, "I didn't know you existed until high school." At least we're friends now!
-Maggie Lifsitz

In 6th grade, I had a crush on Erin Cooney. After mustering up the courage to ask for her number one day in MARS, I texted her this ingenious pick-up line that I figured she HAD to respond to: Do we have MCAS tomorrow? She never replied.
-Dylan Brunelli



Matt Leonard, Marianna Kourtis, Rabi Armany, and I went on a double date to see an 11 am showing of Daddy's Home in 8th grade. Very romantic.
-Caitlin Ariel

I had a crush on Jake Sherman and he was my boyfriend in 5th grade. Then my sister fell in love with him...she still loves him.
-Jenna McNally

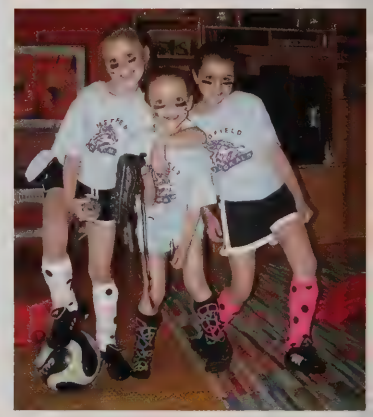
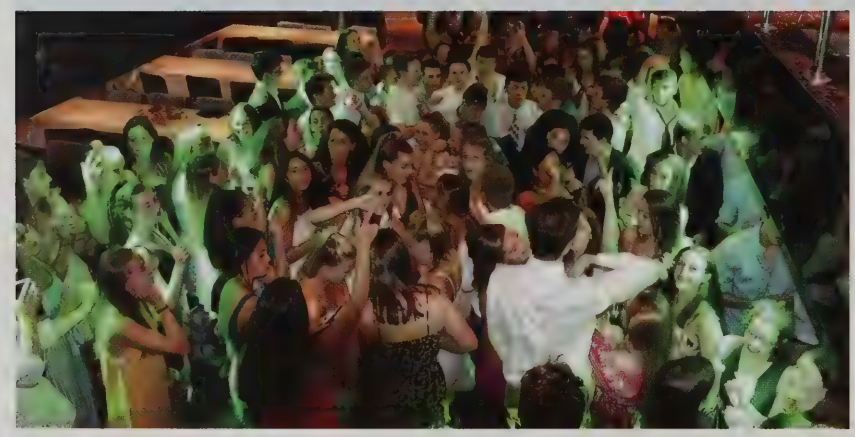
Blasts from the Past...



CLEARLY
FUN TIMES...

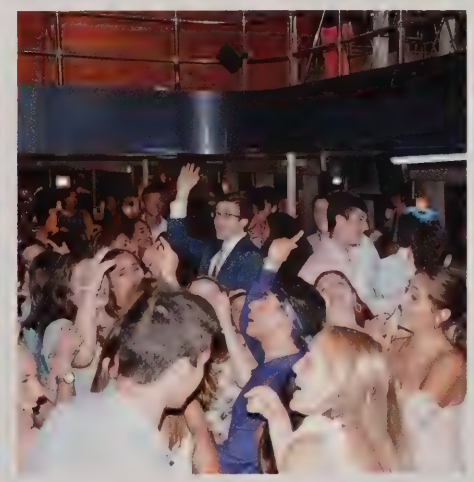
Senior Cruise

An Evening at Sea



Seniors take a cruise around Boston Harbor to kick off and celebrate their final year of high school together.

Madison Colleran, Sidney Sampson, and Tess Patry stop for a second to gather as friends and pose for a picture.



Fun on the dance floor!

Freshman Dance

Welcome, New Students!

Above: Sean Narkewich leads everyone in a Conga line.

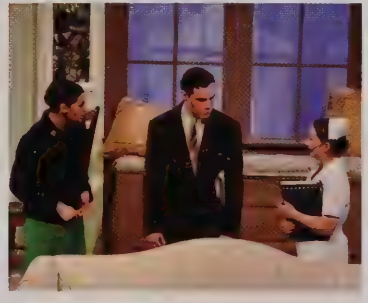
Left: Students gather in the middle for one last dance.

Good times all around!

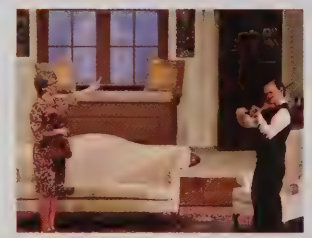
Fall Play

"The Curious Savage"

The play was double casted this year, which means there were two separate casts. This allowed for more involvement! Each cast got to perform twice.



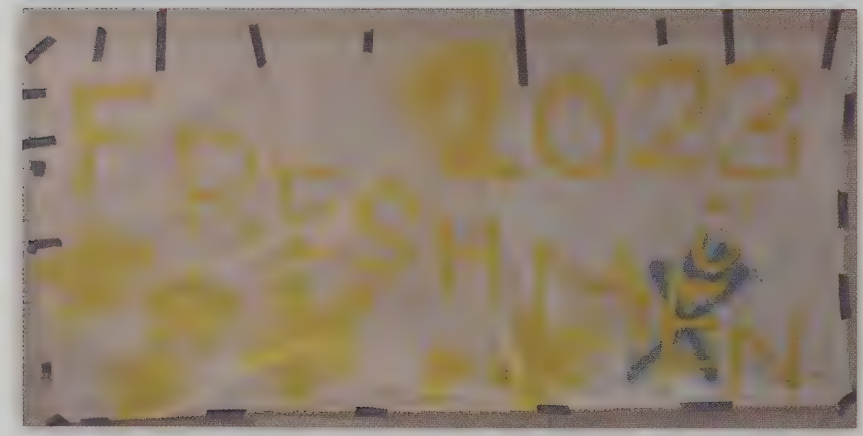
Mrs. Savage, played by senior Kate Davignon on Friday night and Saturday afternoon, teaches the residents a different way to play cards.

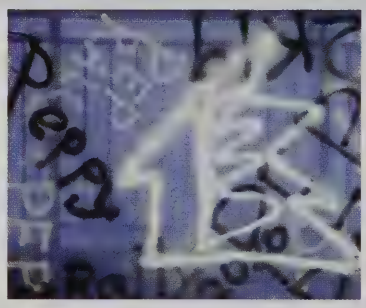


What a fantastic show!

Spirit Days

Colors and Superfans Everywhere

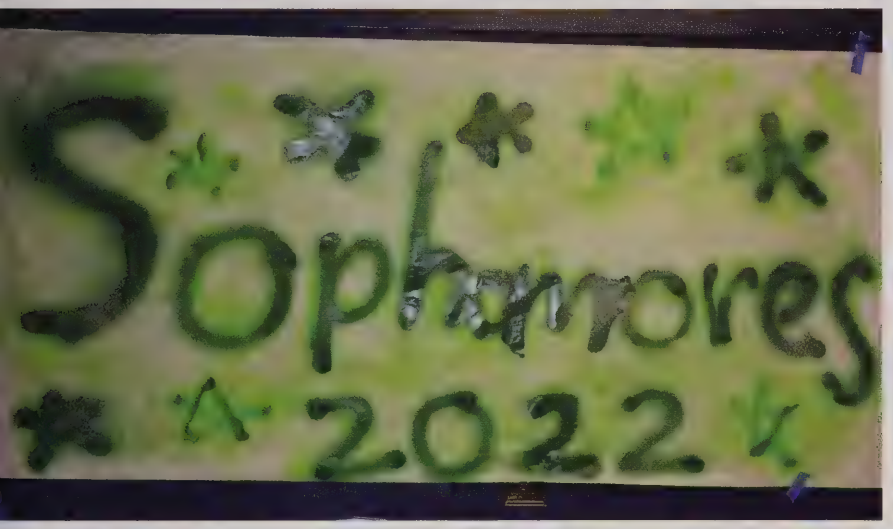


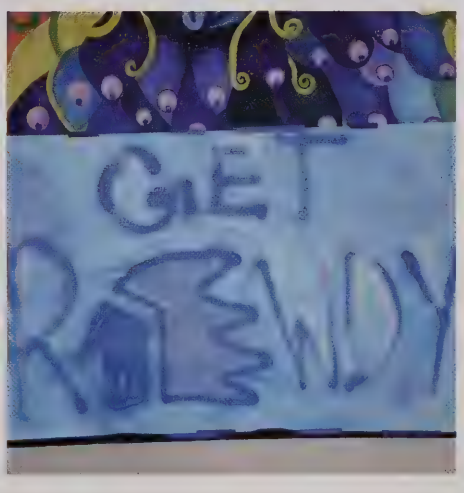


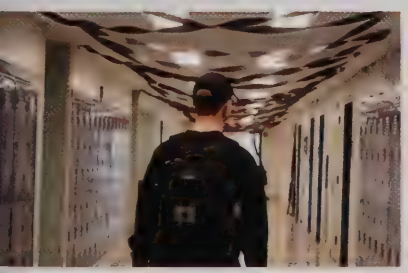
Spirit Week is a fun event held before Thanksgiving every year to pump up the students for Pep Rally.

Left: Freshman girls in yellow on Color Wars Day.

Below: Sophomore girls in all shades of green.







Signs and smiles decorate the hallways!

Pep Rally

Blue Nation

People can't help but smile during tug-o-war, the relay race, and the Staff vs. Students basketball game, which has become an annual tradition.

Above: Student Council getting ready to kick off another amazing Pep Rally.

Below: Sam Joline serving as DJ for the football dance.

A great all-school event!

Powderpuff

Game Time for Lady Warriors

Senior girls play against junior girls in a friendly but intense game of flag football, coached by football players.

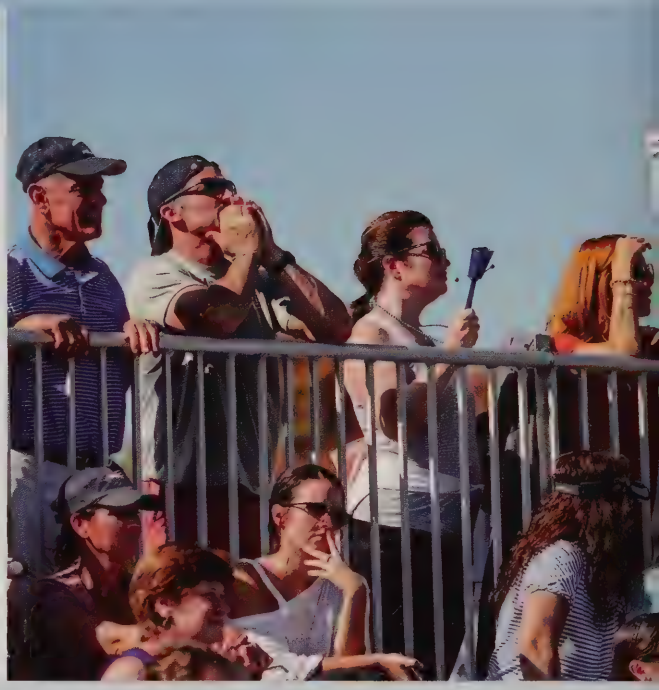
Above: Becca Garvey doing some dance moves after a touchdown.

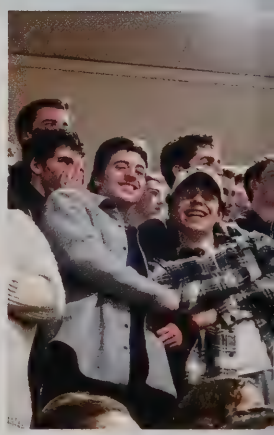
Below: Senior girls strategizing with their coaches about what play to run next.

Pass! Tackle! Score!

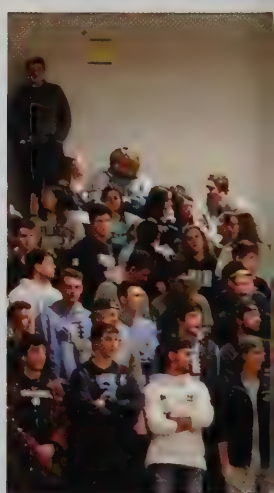
Fans in the Stands

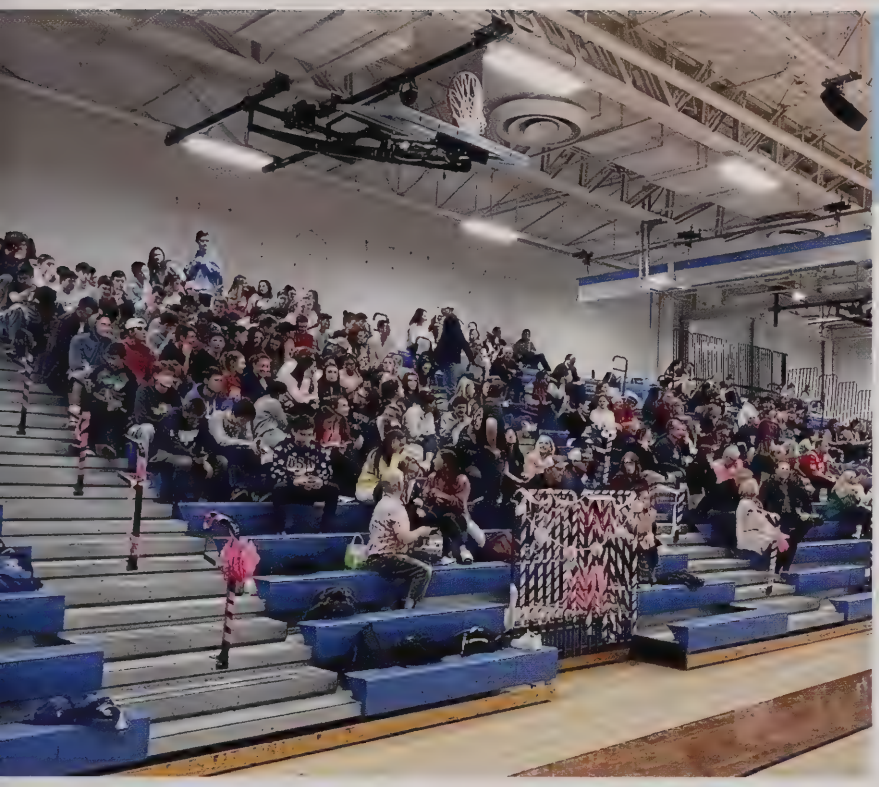
Let's Go!





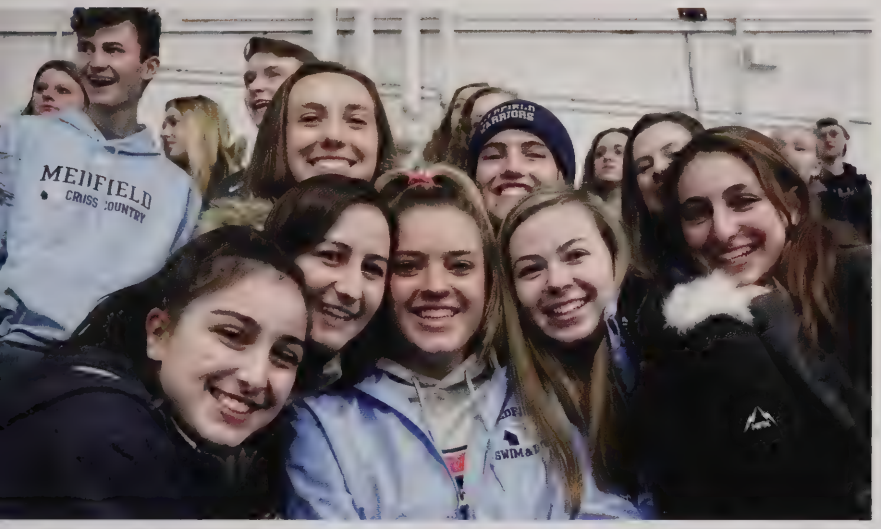
MHS is lucky to have so many fans attend sporting events in order to show their support of athletes in action.

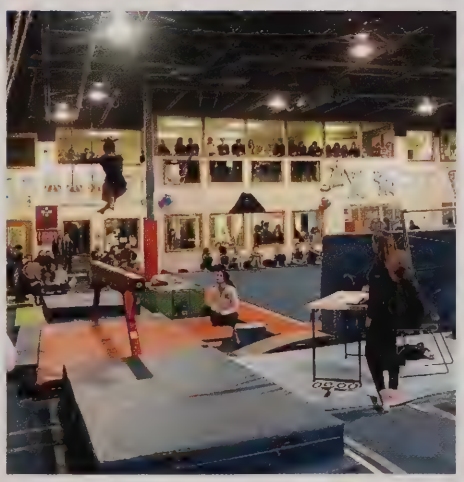


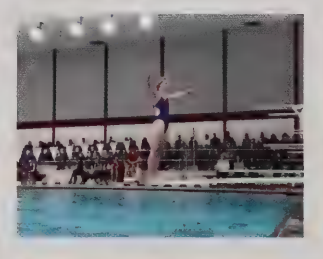


Above: Students cheering for Boys Hockey versus Medway.

Left: A packed gym for the Girls Volleyball game in honor of breast cancer awareness.



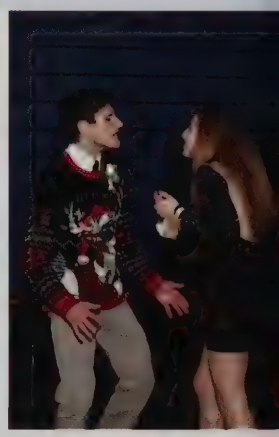




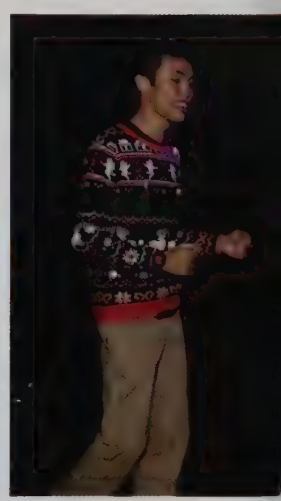
A sense of community!

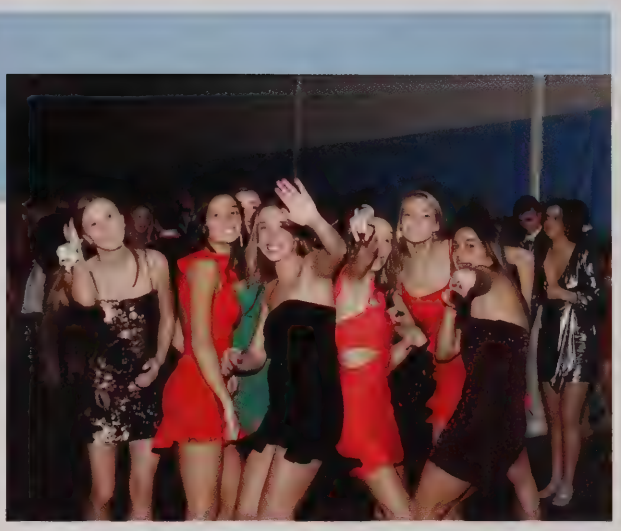
Winter Semi

Dancing the Night Away



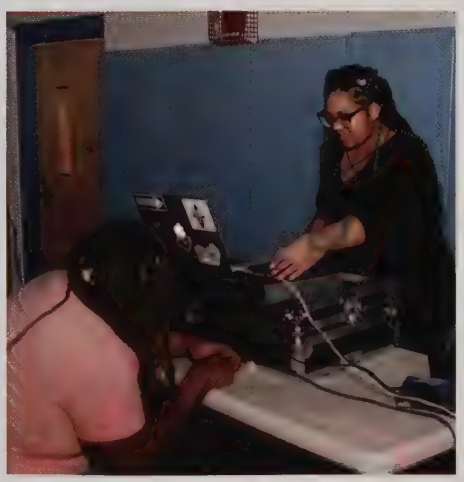
The Winter Semi is a fun event for juniors and seniors to take a break from work and celebrate the holidays.





Above: Some junior girls posing for the camera.

Below: Senior boys dressed up in their "ugly" sweaters.



What festive attire!

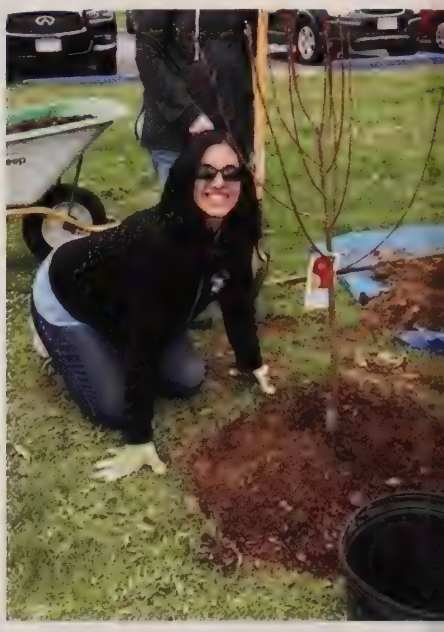
In Memoriam

Dawn LaVallee

On April 28, 2019, Dawn passed away from pancreatic cancer. She was a vibrant worker in the field of food service and nutrition for many school systems and for more than 15 years, the last 4 of which involved Medfield High School. Specifically, she was the Director of Food Service for the Medfield Public Schools. As a member of the School Nutrition Association of Massachusetts, Dawn was proud to provide a healthy school lunch program. She loved working hands-on with staff and students in school gardens. In fact, her colleagues recall with fondness how she would always use the greeting "Hey, Sunshine!" and call everyone "rock stars." Dawn also loved spending her summers with the sun on her face and her toes in the sand at Second Beach in Middletown, Rhode Island. Apparently it was there, in the presence of family, that she felt most fulfilled and free.



John Panciocco

On August 2, 2019, John passed away from bile duct cancer, more formally known as cholangiocarcinoma. He was a wonderful teacher. Struggling students in particular felt as if he "got" them. He greeted every class with a special "thank you for coming to school today." He also, tongue in cheek, told students that they had probably heard of him because he was "a legend at Medfield High School." As a colleague, John was fair, kind, optimistic, and funny. Fellow members of the Social Studies department joked about his prodigious coffee consumption and his habit of leaving mugs all over the school. He was always willing to lend a hand and flash a smile in the hallways or on the sidelines of MHS sporting events, especially while in his role as a Coach or the Assistant Athletic Director. Well, John's "legend" lives on through his loving family and friends. Furthermore, the girls hockey team pays tribute by hanging a jersey in his name behind their bench at games, and the Student Council has decided to put the proceeds from the sale of graduating seniors' lawn signs toward the Cholangiocarcinoma Foundation in his honor.

Boys Cross Country

"Serve, Serve, Serve, Serve"

The Boys XC team wound up 5th in the TVL. They placed 14th out of 26 at Divisionals, thanks to a strong performance from the varsity runners. There were 48 runners in all this year, which contributed to the team's tight-knit community. Often playing volleyball in the field before meets while simultaneously cheering for the girls, the boys were a supportive, hard-working group.

How COVID-19 changed our lives

Nov. 2019

A novel coronavirus was first identified in China's Hubei province. The disease it causes attacks the lungs and causes rapid onset of pneumonia in already immunocompromised patients.

1.21.MD

The first American case was diagnosed in Washington state. The illness rapidly spread across the globe, endangering mostly older adults and those with underlying and chronic health conditions, including lung disease, heart disease and diabetes.

Photo provided by CDC.gov

The World Health Organization (WHO) names the virus SARS-CoV-2 (Severe Acute Respiratory Syndrome Coronavirus 2) and the disease it causes COVID-19 (Coronavirus Disease 2019). Worldwide death toll is 1,107.

March

Canada had 118 cases. United States had 1,267 cases. Italy had more than 12,000 cases.

The WHO declared SARS-CoV-2 a pandemic, which meant the 118,000 cases and more than 4,000 deaths worldwide required more specific and targeted attention and resources.

To slow the virus's spread, the US suspended European travel for 30 days.

12

Canadian Prime Minister Justin Trudeau and wife Sophie Grégoire Trudeau self-isolated after she experienced symptoms. He was cleared, but she had the virus.

16 US states closed schools to reduce community spread of the virus:

Alabama	West Virginia	New Mexico
Wisconsin	Illinois	Oregon
Maryland	Pennsylvania	Virginia
Ohio	Louisiana	Utah
Kentucky	Rhode Island	
Washington	Michigan	

US declared a national state of emergency.

fourteen

- The US reported 2,816 confirmed cases and 58 deaths.
- Fifteen states activated National Guard troops to assist with virus-related concerns, including regulating the flow of medical supplies, food and shelter.
- Canadian provinces canceled schools as the numbers of infected rose.

- Canada reported 341 cases.
- More cases were reported outside mainland China than inside it for the first time in the history of the disease.
- The largest school district in the US, NYC Public Schools, closed.

Provinces, states and cities continued to implement strict measures to slow the spread of the virus. The movement, called "flatten the curve" prompted entertainment, bar and restaurant closures across the US and Canada. By Monday, all NBA, PGA, MLB, MLS, NASCAR, NHL, and NCAA sporting events were either canceled or put on hold for two or more weeks. Some especially hard hit areas, including seven counties in California, put a three-week-long "Shelter in Place" home restriction on citizens, requiring they leave their homes only for essential needs. Workers in essential services (emergency and medical, banks, grocery, pharmacy and food service) were exempted from the restriction, so they could work.

17 St. Patrick's Day

Celebrations were canceled (even in Ireland). Nonessential services (salons, movie theaters, shopping malls, etc.) were closed for 30+ days in many states. The Canadian-US border was closed to travel (but not trade) in a mutual agreement.

NOTRE DAME DESTRUCTION

A mammoth blaze tears through the Notre Dame Cathedral in Paris, nearly destroying the 850-year-old landmark. The church's wooden latticework roof and iconic spire collapse, but many of the valuable cultural treasures avoid damage with some kept safe at the Louvre Museum. French President Emmanuel Macron would like the Notre Dame Cathedral to be rebuilt in five years, but restoration experts believe it could take 10 to 15 years. More than $700 million is collected in donations for the reconstruction, including $100,000 from the University of Notre Dame in Indiana.

GLOBAL FIRES

Massive wildfires rage on two continents: in Brazil's Amazon rainforest and across Australia. This year the Amazon rainforest experiences the highest number of fires since Brazil's National Institute for Space Research began keeping records in 2013, which burn 2.2 million acres. The Australian bushfires primarily affect the state of New South Wales and 12 million acres are burned as of January 2020. New South Wales is home to Australia's most populous city, Sydney.

LOST CONTINENTS

Douwe van Hinsbergen – a geologist at Utrecht University in the Netherlands – and his colleagues discover a lost continent known as Greater Adria while studying rocks beneath the Mediterranean Sea. Approximately 140 million years ago, Greater Adria and southern Europe collided, burying Greater Adria in the process. Most of the continent sank beneath what is now Italy, Greece and the Baltics. Analysis of ancient rocks suggests that almost all of Earth's earliest continents might have disappeared, leaving traces behind like certain rocks found on the Alps.
